INJ-218 FCA Compact Engine & Electronic Diagnostics

(C-Evo, Dodge Dart, Jeep Cherokee, '14 up Chrysler 200)

Chrysler reintroduced the Dodge Dart name in 2012 as a 2013 model. The Dart has 3 engine options. The 2.0 Litre 16V Tigershark engine/the 2.4 Litre 16V Multi-Air 2/ and the 1.4 Litre 16V Muti-Air Turbo. There are 3 transmission options. A 6-speed manual/a 6 speed automatic and a 6-speed dual clutch. The 6-speed manual is available with all engines while the Powertech 6F24-6 speed automatic is only available with the 2.0 L and 2.4 L engine options and the 6-speed dual clutch is only available with the 1.4L Turbocharged engine. There are 5 different models available from base to the sporty GT including an Aero model featuring economy enhancing features such as electronically controlled active grille shutters. The Limited model features an 8.4-inch multi function touch screen. The Dart is also equipped with numerous electronic safety features including Stability and Traction Control, ABS braking system, Blind Spot Monitoring and Rear Cross Path Detection. In this class, we will look at the features of the 3 available engines, including the Multi-Air system, as well as the electronic controls for the engines and various other systems on the vehicle.
