

IGNITION COIL MULTI-PACKS

NOW IN STOCK!

The NGK Difference

OPTIMAL PERFORMANCE

High-quality electrical steel coil lamination provides maximum efficiency to produce the best possible spark.

TOP 10 PART NUMBERS

Coverage of applications that have high replacement rates.

PER CAR QUANTITIES

The most cost effective and time saving way to purchase.

COMPONENTS INCLUDED

Includes the ignition control module, coil boot and dielectric grease to control moisture and ensure easy installation.

NGK Part #	Multi-pack Qty	Applications	VIO coverage
49170	8	1997-2014 Ford, Lincoln, Mercury - 8 & 10 Cyl.	6,752,489
49171	8	2004-2008 Ford, Lincoln, Mercury - 8 & 10 Cyl.	2,196,404
49172	8	1999-2008 Dodge, Jeep, Mitsubishi - 6 & 8 Cyl.	1,833,787
49173	4	2005-2015 Audi, VW - 4 & 10 Cyl.	1,331,512

49175	6	2000-2008 Ford, Mazda, Mercury - 6 Cyl.	1,983,684
49176	6	1999-2010 Acura, Honda, Saturn - 4 & 6 Cyl.	4,237,187
49177	6	2001-2015 BMW, Mini, Rolls-Royce - 6 & 12 Cyl.	1,535,583
49178	6	1999-2006 Lexus, Toyota - 6 Cyl.	1,155,304
49179	4	2006-2011 Hyundai, Kia - 4 Cyl.	356,628

SAVE WITH MULTI-PACKS

On a 2001 Ford Escape (V6 engine), the technician is required to remove the intake manifold which adds additional labor costs to gain access to the ignition coil to repair. While the intake manifold is off, NGK recommends replacing all the ignition coils at the same time. Often when one coil has failed, the others may not be far behind. Replacing per car quantities gives the customer peace of mind that they won't have to be back for the same service again.

2001 Ford Escape (V6)- Labor @ \$100 per hour	Replacing a one coil	Repeated repair (6 times)	Replacing with NGK Multipack	Potential savings with NGK Multipack
Diagnostic	\$100	\$600	\$100	\$500
Install	\$170	\$690	\$220	\$470
Total	\$270	\$1290	\$320	\$970

*Labor hours required: Right side 1.7 hrs/Left side 0.6/Both sides simultaneously 2.2 (includes upper intake manifold R&I).
