ONE PIECE ASSEMBLY DIRECT-FIT MUFFLERS FOR EASY INSTALLATION

OEM STYLE FLANGES
Easy install bolt-on systems.

ONE PIECE INTERIOR TO END CAP CONSTRUCTION
To reduce flex and stand up to vehicle vibration.

UNIFORM FLOW HOLES

Provide even distribution of exhaust flow through box interior. This feature accelerates condensation burn-off and eliminates cold spots to prevent rust formation.

OEM STYLE HANGERS
For easy installation and better fit. Designed thicker for added strength.

ONE PIECE WELDED/RIDGE LOCKED CONSTRUCTION
To add strength and resist vehicle and engine vibration. Eliminates the need to spot weld, providing longer life.

EXTERNAL DRAIN HOLE
Extends muffler life by allowing moisture to escape.

Unlike some other lesser brands, BOSAL mufflers are fully aluminized in both external and internal construction, and feature fully welded perforated tubes to guarantee long life.

While others may talk quality and performance, BOSAL USA delivers.
