Your Complete Turbocharger Solution

Future market growth for turbochargers is estimated at 18% a year, which translates to a doubling of the market every four years. With over 50% of production vehicles featuring a turbocharger by 2025, the need for solid aftermarket solutions

CARDONE New and Remanufactured Turbochargers are available for a vast array of automotive applications to meet the growing demand for maximum vehicle performance with optimal fuel efficiency. Every CARDONE turbocharger has been designed and tested to guarantee O.E. fit and performance.

Remanufactured Power Steering Pumps

CARDONE™

CARDONE Power Steering Pumps are engineered to meet or exceed O.E. performance. Original designs are scrutinized for potential improvement, and where applicable, design upgrades are implemented to produce a more durable part than the original. All critical components are tested to ensure proper function. Every unit undergoes a hydraulic efficiency test to ensure reliable, long-lasting performance.
