## DENSO RADIATORS

DENSO is a leading supplier of radiators to OE car makers around the world. Manufacturers rely on our quality and innovation to remain on the leading edge of engine cooling technology. DENSO's OE experience and know-how ensure our First Time Fit<sup>®</sup> products provide unmatched performance, reliability and fit. They provide the quality, performance and easy installation you expect from DENSO.

### HIGH PERFORMANCE

Radiator performance is essential for proper engine cooling and function. DENSO's radiator configurations, tanks, fin pitch, core dimensions and materials meet OE manufacturer's rigid specifications. All DENSO First Time Fit radiators pass our strict durability and function tests. As a result, our radiators deliver reliable performance even under the most demanding conditions.

#### DENSO First Time Fit radiator types include:

- Plastic tank with aluminum core
- Plastic tank with copper core
- Cross-flow and down-flow configurations

### QUALITY

DENSO is known for the unsurpassed quality of its products. Plastic, copper or aluminum components – it doesn't matter. All DENSO radiators are dependable, light weight and made to last. DENSO First Time Fit radiators are designed to meet OE specifications - ensuring proper functioning of the cooling system and long service life.

### EASE OF INSTALLATION

The DENSO radiator program is designed with our First Time Fit philosophy in mind. You get radiators that drop in easily without the need for adjustment, brackets, or modifications of any kind. Our radiators are precision built to provide the right part, the right fit, the first time.

### APPLICATION COVERAGE

Coverage for over 143 million vehicles in operation, 631 part numbers. Applications include popular GM, Chrysler, Jeep, Dodge, Ford, Toyota, Honda, Lexus, Acura, Mitsubishi, Scion, Infiniti, Mazda, Subaru, Hyundai, and Kia vehicles.
