PREMIUM PERFORMANCE AT AN AFFORDABLE PRICE

Every **FCS Automotive** product is engineered to meet O.E.M. quality using the latest state of the art manufacturing processes. All components and valving are specifically designed and calibrated to match form, fit and function for vehicle application and provide the OE ride and feel. Each unit is compression & durability tested to ensure units meet OE specifications. All units include Freudenberg NOK seals, a highly-polished chrome rod finish, high performance shock oil and an OE style piston to ensure premium OE quality.

COMPLETE STRUT ASSEMBLIES INCLUDE:

- 1. MacPherson Strut:** With Freudenberg NOK seals, mirror-finished, hard-chrome piston rod, and premium Fuchs oil (insures a great seal, long-life and consistent dampening over wide range of temperatures).
- 2. Coil Spring:** Springs are checked for OE compression levels. All springs Electrostatic coating for optimal corrosion resistance.
- 3. Bearing Plate:** Endurance tested under extreme load to ensure optimal performance & long life.
- 4. Boot Kit & Bumper:** Bumper molded from urethane rubber for long dependable life. Absorbs harsh, damaging road impact and noise for quieter driving.
- 5. Upper Spring Seat:** Absorbs harsh, damaging road impact and noise for quieter driving.
- 6. Upper & Lower Isolators:** Ensures spring remains stable in all conditions.
- 7. Reinforced Brackets:** Designed to handle even the worst road conditions.

COMPLETE STRUT ASSEMBLY BENEFITS:

- No chance of missing parts
- **QUICKER** - No need to take apart existing strut assembly
- Minimize wear and tear on tires and other components
- **SAFER** - No need to compress coil springs
- **EASIER** - No specialized tools needed
- Improves steering, handling and braking ability
