WHEEL BEARING & HUB ASSEMBLY

Wheel End components transmit power from the vehicle's axles to the tires while continuously supporting the vehicle and reducing vibration. GMB Wheel End Component program offers extensive coverage with a variety of products including Wheel Bearings and Hub Assemblies, to keep your vehicle moving safely and smoothly.

Key Features:

- Manufactured using high strength steel
- Bearing noise tested
- OE Type sensors to ensure proper ABS function
- All Hub Bearings are preloaded to reduce excess noise/vibration
- Roll formed hub for higher assembly strength
- Premium triple-lip seals offer maximum protection of the bearing
