

# POWERSTOP®

## EXTREME PERFORMANCE BRAKE SYSTEMS

**Power Stop Evolution Coated** rotors are a direct bolt-on replacement for factory equipment. The inside of the vanes disc brake rotors are fully coated with Genuine GEOMET rust preventative coating to maximize long-lasting protection.

The rotors are manufactured with **Tru-Cast technology**. This resulting in a precision cast and precision machined product. Rotors are OEM weight and retain the OEM vane configuration for trouble-free operation.

**Genuine GEOMET 360**- This protects the against rust and corrosion without influencing the vehicle's braking performance.
