RIDE CONTROL

BY FCS AUTO

FCS COMPLETE STRUT ASSEMBLIES

- Easier & Faster to install than traditional struts
 - No Spring compressor is required
- The components and valving are designed specifically for each vehicle
- The precisely calibrated valving combinations are individualized for each application to best simulate OE ride and feel

STRUTS & SHOCK ABSORBERS

- Improves steering and handling
- Improves braking ability and safety
- Minimize wear and tear on tires and other components
- FCS ride control products feature Velocity Proportional Valving technology that provides proportional damping based on the speed of vehicle-to-road impact
- The twin-tube design restores a vehicle's originally designed handling and control
- Coverage available for domestic and import cars, trucks, vans, minivans, and SUVs
