Show Specials

Motor Oil

Synthetic Blend 5W-30 #MAG161652

- Resists thermal breakdown & reduces deposit formation for longer, better engine protection than conventional oil
- Additives work to keep engines clean
- Provides a strong film barrier to control friction, resists wear and keep metal surfaces from coming into contact
- Meets or exceeds U.S. & import car & light truck warranty requirements for most automotive gasoline engines

Full Synthetic 5W-30 #MAG161790

- Engineered to improve fuel mileage and to maximize horsepower & acceleration
- Longer & better engine protection than conventional oils due to strong & uniform synthetic base oils and advanced molecules that provide a strong film barrier to control friction, resist wear & keep metal surfaces from coming into contact
- Created for extreme hot & cold driving conditions: stop & go, frequent short trips, heavy loads & dusty conditions
- Meets or exceeds API SP & ILSAC GF-6A requirements
- Meets or exceeds GM specifications for worldwide warranty requirements for all GM automotive gasoline engines currently in use

Chemicals

Non-Chlorinated Brake Cleaner Pro Formula #MAG1409

- Professional strength cleaning power removes brake fluid, oil, grease and other contaminants from brake linings, rotors & drums
- Evaporates quickly and leaves no residue
- Suitable for all vehicles – including EV
