

# BREMBO PRIME BRAKE PADS

## THE PERFECT PARTNER

### STRENGTHS THAT DISTINGUISH THE RANGE

The Brembo range of brake pads ensures **maximum safety** when braking thanks to **absolute control of all production stages**.

From research and development to testing, passing through **production of the friction compound and mechanical processing**.

## PREMIUM FEATURES

#### FRICITION MATERIALS

Component mix, compressibility and friction coefficient help to identify performance, comfort and wear of a friction material

#### DAMPING WEIGHTS

Brembo patent to minimize brake noises

#### MARKING

All the needed information

#### DESIGN

The presence of chamfers and slots influences the ability of the pads to reduce noise and increase flexibility and cooling

#### BACKING PLATE

With different anchoring systems for friction material

#### PISTON INTERFACE

Brake shims have the ability to reduce noise
