### RUST PAINT

Apply directly over rust! Stop rust from spreading and seal out moisture. UV Resistant and no topcoat needed. Super durable and long lasting.

- Apply directly over rust.
- Super durable, rated up to 300°F (149°C).
- Coverage: Aerosol — 10 -12 Sq. Ft. Quart — 40 Sq. Ft. Gallon — 160 Sq. Ft.
- Matte black finish.

### RUBBERIZED BEDLINER & UNDERCOATING

The only undercoating that can go directly over surface rust. Other undercoatings mask rust allowing it to spread out of sight.

- Apply directly over rust.
- Does not trap or seal in moisture allowing rust to continue spreading.
- Flexible & durable finish allows for use in truck bed liners and undercoatings.

### SURFACE PREP

Eliminate wax and grease to ensure proper paint adhesion. Powerful cleaner removes oils, waxes, and contaminants that could affect paint adhesion and appearance.

- Remove contaminants that can cause poor adhesion and delamination.
- Easy application.

### RUST PREVENTION & LUBRICANT

Stop rust before it starts & lubricate with this wax infused lanolin-based formula. The special formulation allows the lubricant to cling and not run while remaining flexible and pliable.

- Long-lasting formula stays in place.
- Ideal for home, shop, auto, industrial, marine, & more.

### RUST CONVERTER

Convert rust into an inert surface that is ready for painting. Penetrates deep into metals to ensure rust doesn't come back. Use Rust Paint as a top coat to ensure rust is gone forever.

- Easy application, brush or spray on.
- Penetrates deep into rust.
